

6612 Heavy Duty Solar Power Kit

Install your Vantage Vue or Vantage Pro2 console, Weather Envoy or Envoy8X outside with solar power and shelter.

Our large solar panel and a 12-amp-hour battery provide enough power for a cabled console and outdoor sensor suite, an Envoy8X or wireless consoles where more power is needed. There is enough room inside the weather resistant shelter to mount an Envoy8X or Weather Envoy. When used with a Vantage Vue or Vantage Pro2 console, mount the console inside a Universal Shelter.

Includes the new 5.0-watt-solar panel, weather-resistant shelter, regulator circuit, 12-amp 6-volt rechargeable battery and 10 ft. (3 m) cable.
