

6332AU Anemometer/Sensor Transmitter Kit

With Vantage Pro2, this solar-powered kit allows you to mount the anemometer in a different location than the integrated sensor suite (up to 1,000 ft. (300m) from your wireless console/receiver).

With Envoy8X, you can use this kit with any of our sensors including solar radiation, UV, temperature, anemometer, rain and third-party sensors that report in a range of 0-3 volts.

For longer distances, add one or more wireless repeaters.

Includes:

- Weather-resistant shelter for transmitter
- Solar panel
- Battery
- Mounting hardware

Not compatible with original Vantage Pro.
